IMPORTANT NOTICE: WATER SYSTEM TESTING & FLUSHING

The Grafton Water District will be conducting **mandatory system flushing for testing purposes** on:

Thursday, July 30th

7:30 PM – 9:30 PM

This work will take place in the **North Grafton area**, but residents in surrounding areas may also experience temporary effects.

What to Expect:

- Possible **discolored water**
- Temporary changes in water clarity or pressure

If You Experience Discolored Water:

- Avoid using **hot water** or running appliances that use hot water (such as dishwashers or washing machines)
- **Do not do laundry** until the water runs clear
- Run your **cold-water faucet for up to 20 minutes**, or until the water runs clear

We appreciate your patience and understanding as we perform this necessary testing and will keep Facebook as well as our website updated with any and all developments.

If you have any questions or concerns, please contact our office at 508-839-2302.

Thank you,

Grafton Water District
